DAMAGE AND LOSS OF PUBLIC LIBRARY BOOKS

Injuries to books beyond reasonable wear, and all losses, must be made good by the borrower to whom the books are charged. If one volume of a set is lost or damaged, the borrower will be held responsible for the set, unless the Library can satisfactorily replace the lost volume.

Any person willfully injuring (cutting or marking) books or other property of the Library becomes liable under state law to imprisonment for a year, or a fine of five hundred dollars, or both.

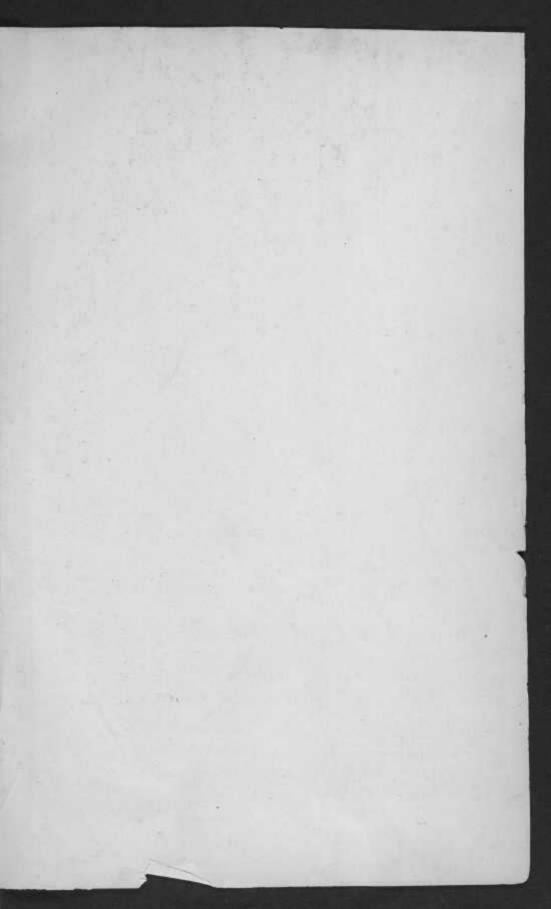

No book with Library marks upon it is ever sold by the Library. If any book so marked is offered for sale and sold, both the seller and buyer are liable.

No person will be allowed to draw books while any charge for damages to books or for overdue is unpaid.

#### ANNOUNCEMENT FOR 1886.

HE BUFFALO CITY DIRECTORY for 1886 is in every respect an improvement on its predecessors, and contains seventy-four thousand and thirty-two names (74,032) as against seventy-one thousand five hundred and twenty of last year (71,520), showing an increase of 2,512 names. The usual method of arriving at the number of inhabitants is by computing from the names contained in a Directory, by multiplying the whole number presented by 3½. This is considered by many Directory publishers as a fair and impartial estimate. For many years past we have considered 3¼ to be the rate we should employ. This gives us a population of two hundred and forty thousand six hundred and four (240,604), as against 232,440 last year.

No material change has been made in its arrangement. We have given special attention to our advertisers, making indexes complete; also giving much care in indexing the introductory matter, so that those desiring information in that direction have only to consult the indexes to readily find what they desire.

The publishers of the BUFFALO CITY DIRECTORY have pleasure in feeling that it will prove to be superior to any of its predecessors, and therefore cheerfully present the 1886 volume to speak for itself.

#### BUFFALO

# STREET AND AVENUE DIRECTORY.

#### EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enuncerating all streets which cross the same in the order in which they occur. The streets in the city were renumbered in 1868, and the following method was adopted, to wit: From the starting point of the street, measuring along the line of the street twenty feet; then making No. 1 to the right-hand side, and No. 2 to the left-hand side, and so on, each twenty feet; whether there be a building or a vacancy or a street crossing. The number on one corner has been given, so that as person wishing to find, say, 499 Main Street, on consulting the Street Directory, finds that the right-hand corner of Main and Mohawk is No. 487, consequently, the place he seeks is only a few doors above.

Takes the place of the Ratchet, as it will do all that the latter does, faster, easier and better, besides doing JUST AS GOOD work, and EASIER, in the clear.

We manufacture also the famous BARKER IMPROVED BRACE, and the UNIVERSAL BRACE, which latter is positively the best cheap Brace ever put upon the market.

By adding an attachment at the side of our Ratchet Brace, the adjustment is now worked with remarkable ease and simplicity; and as ours is the most substantial and durable Ratchet in make, the low price lately put upon them at once commends them.

(REGISTERED.)

#### A NEW AND VERY USEFUL ARTICLE.

The most convenient pocket pencil in existence and one that commends itself to universal popularity for its excellent features. It obviates the necessity of adjusting the lead each time that it is needed for use, as a mere pressure on the top of pencil permits the lead carrier to drop forward to be rigidly fastened between two jaws the same as the lead is clasped in the regular and well known Antomatic Pencil. Therefore the pencil is at all times ready for use without the inconvenience of adjusting the lead and thus avoids the solling of the fingers.

### ST. JOSEPH'S COLLEGE

Conducted by the Christian Brothers.

DELAWARE AVENUE AND CHURCH STREET.

Cure is taken that every branch prescribed be coraftally studied, and that nothing be learned merely by rate. With this view, the students discuss the subject-matter of each leason in class, independently of the text-book. They thus accumulate ideas instead of mere words aligned what they learn, and acquire thoughtfuiness, self-reliance and facility of expression.

Care is taken that every branch prescribed be enrefully studied, and that nothing be learned merely by rofe. Wish this view, the students discuss the subject-matter of each lesson in class, independently of the text-book. They thus accumulate ideas instead of neers words, digest what they learn, and acquire thoughtfulness, self-reliance and facility of expression.
